

Diesel DPF Cleaner Heavy Duty 1000ml

JLM DPF Cleaner Heavy Duty is one of the best diesel particulate filter cleaners for commercial trucks, tractors, machinery, buses and heavy duty diesel trucks - HDV-LDV-MDV. JLM DPF Cleaner Heavy Duty contains a very high concentration of the active additive meaning a more effective regeneration and cleaning of the heavy duty DPF.

DPFs are much more complex and expensive pieces than the simple mufflers they replaced. The DPF filter captures incompletely combusted fuel (soot) from the truck's engine that would otherwise end up in the environment. In the course of time the filter becomes full. The truck's electronics ensure that this soot is burned during motorway driving or when the engine is under a heavy load. This is known as regeneration.

However, many trucks only make short journeys (delivery trucks) as a result of which the engine is hardly under any load at all. As a result, regeneration does not occur and soot continues to accumulate in the diesel particulate filter. Eventually the filter becomes blocked. The orange warning light with the diesel particulate filter symbol lights up on the dashboard and normally the truck has either do a forced - or active regeneration while being parked next to the road, or in the worst case scenario taken to the garage or service station.

JLM DPF Cleaner Heavy Duty solves this specific problem. There is no need to remove the diesel particulate filter from your commercial trucks, tractors, machinery, busses and heavy duty diesel trucks - HDV-LDV-MDV.

Benefits

- Highly effective DPF cleaner
- Low Ash Regeneration
- Unique high performance catalyst
- Heavy- & Medium Duty Vehicles
- On- & Off-road Trucks And Machinery
- 1 Liter Treats 170 Liter Diesel Fuel

How to use:

Add to diesel fuel tank after refilling.

Product information

Art. Nr: J02215

Barcode: 8718274351361

HS code: 3811900000

Ufi Code: F546-P09F-H006-VX7H

Pack Size: 1000ml

Quantity in box: 6

Weight full box: 5,76 kg

Boiling point: Not determined

Flash point: > 60 °C

Closed Cup Density: -

Colour: Clear, pale amber

Odour: Almost odourless
