

Diesel Injector Cleaner 250ml

JLM Injector cleaner, cleans the entire fuel system including the intake valves and injectors, reduces soot deposits in the diesel particulate filter and improves power and fuel consumption.

Diesel technology is developing ever more quickly as a result of the constant tightening of emission regulations and the requirements relating to fuel consumption. This is why fuel additives are becoming increasingly important. The additives allow the engine to perform well and avoid problems and expensive repairs.

Is your car's performance poor, are there injector problems, have you noticed black smoke or your engine running irregularly? Then add 250 milliliters of JLM injector cleaner every 5000 kilometers to a full tank of diesel via the filling opening. Diesel Fuel System Cleaner Pro prevents the growth of algae in the fuel tank and displaces water.

Benefits

- Restore engine power
- Improve fuel economy
- Clean up Injector deposits
- All Diesel cars
- Clean up Injector deposits

How to use:

Pour the contents of the bottle into the tank before refueling Dosage: One bottle is enough for 40 - 60 liters of diesel. For best results, use one bottle every 5000 kilometers.

Product information

Art. Nr: J02320

Barcode: 8718274351095

HS code : 3811900000

Ufi Code : 9PFE-XODF-500N-TKFG

Pack Size : 250ml

Quantity in box: 12

Weight full box: 3.6 kg

Boiling point: > 100°C

Flash point: > 62°C

Density at 20°C: 0.81 g/cm³

Colour: Transparent

Odour: Characteristic
