

Diesel Emission Reduction Treatment 250ml

JLM Diesel Emission Reduction Treatment helps reduce emissions measured at MOT inspection. This Diesel catalyst cleaner contains a unique blend of additives, including a cetane booster and powerful cleaning additives that ensure thorough and thorough cleaning of the entire fuel and exhaust system on diesel engines.

JLM Diesel Emission Reduction Treatment contains a unique blend of additives, including a cetane booster and powerful cleaning additives that ensure thorough and thorough cleaning of the entire fuel and exhaust system on diesel engines. The formula also contains a DPF regeneration additive specifically designed to reduce the temperature at which carbon deposits are burned off in the particulate filter. This is a great benefit for diesel cars and light commercial vehicles with city cycle/low mileage. It helps improve performance and significantly reduce maintenance costs.

Benefits

- Use Before Emission Test
- Reduces Emissions and Soot
- Increase engine performance
- Promote DPF regeneration
- Professional Formula

How to use:

Pour the contents of the bottle into the tank before filling the tank with diesel. Dosage One bottle is enough for 40 - 60 liters of diesel.

Product information

Art. Nr: J02370

Barcode: 8718274351118

HS code : 3811900000

Ufi Code : 6GJ6-408Y-Y00W-EUJH

Pack Size : 250ml

Quantity in box: 12

Weight full box: 3.18 kg

Boiling point: >100°C

Flash point: >62°C

Density at 20 °C: 0.81 g/cm³

Colour: Amber / brown

Odour: Characteristic
