

Petrol GPF Cleaner 250ml

JLM Petrol GPF Cleaner is a high grade petrol fuel additive specially developed as a cleaner for the Gasoline Particulate Filter of modern petrol engines.

JLM Petrol GPF Cleaner optimizes the combustion of excess (soot) particles in the GPF and cleans the injectors and combustion chamber to prevent quick new build-up of excess (soot) particles. The unique combination of a clean fuel system, clean combustion with lower emissions and catalysed particles will clean up and assist in keeping the GPF, the catalytic converter, the exhaust gas recirculation system (EGR) as well as the turbo compressor and its variable geometry vanes clean from deposits.

For all common petrol engines in passenger cars equipped with a Gasoline Particulate Filter.

Benefits

- Cleans excessive soot particles from GPF/PPF
- Prevents clogging Gasoline Particulate Filter
- Improves regeneration of GPF
- Extends service life of GPF
- Improves fuel economy

How to use:

Pour the contents of one bottle in the fuel tank before filling it with petrol.

One bottle treats 40-60 litres of petrol.

Product information

Art. Nr: J03160

Barcode: 8718274351552

HS code: 3811900000

Ufi Code: V9R8-Y0JK-X00V-YHWG

Pack Size: 250ml

Quantity in box: 12

Weight full box: 3.3 kg

Boiling point: >100 °C

Flash point: >62 °C

Density at 20 °C: 0.797 g/cm³

Colour: According to product specification

Odour: Characteristic
